

DELTAVISION®

Bringing Vision into Focus

Offering vision insurance provides a desirable benefit to the more than three-fourths of the population who need eyeglasses or contacts to see. Encouraging routine vision exams is also a crucial step in ensuring that potentially serious vision and health problems are identified and treated early.

Whether you offer DeltaVision on a completely voluntary basis or as a contributory plan, the additional discounts gained through your membership in The Alliance® make it a good value for you and your employees.
